# GEORGIA RELAY SERVICE

---

Did you know, that many Georgians who are deaf, hard of hearing, or have speech disabilities can now enjoy the convenience of communicating with family, friends, or business contacts by telephone, thanks to the Georgia Relay.

Here's how the Georgia relay works: a person who is deaf, hard of hearing, or may have a speech loss, types his/her conversation using a text telephone (TDD/TTY). A specially trained Communications Assistant (CA) relays the message by reading the text message to the hearing person at the other end. The CA then relays the hearing person's spoken words by typing them back to the TDD/TTY user.

Hearing callers who wish to reach people who are deaf, hard of hearing or speech disabled may simply dial 7-1-1 or dial 1-800-255-0135. Text telephone users may also dial 7-1-1 or 1-800-255-0056. There is no charge for dialing 7-1-1, and all options available to GA TRS (Telecommunications Relay Service) users through existing 800 numbers will be available to 7-1-1 users. If you are experiencing trouble dialing 7-1-1 to reach the Georgia Relay, please call your local telephone company.

Relay service is also available over the internet. Deaf, hard of hearing, and speech disabled customers can simply go to <http://www.att.com/relay> to be connected to a CA. Customers may also go to <http://www.att.com/relay> to access video relay service where a certified American sign language (ASL) interpreter will relay your signed conversation to the hearing party.

Telephone assistance is now available for people with speech disabilities. Speech-to-Speech services lets people with speech disabilities communicate on the telephone by using their own voice or voice-assisted device, through the help of a specially trained CA by dialing either 7-1-1 or 1-800-229-5746.

If you want to learn about the Georgia Telecommunication Equipment Distribution Program, please contact the Georgia Council for the hearing Impaired at [www.gachi.org](http://www.gachi.org) or dial 1-800-541-0710.

Spanish Relay Services is available to Spanish speaking residents of Georgia. TTY and Voice users can dial the Spanish Relay Service for local calls in Georgia and the state-to-state calls anywhere in the United States, including Puerto Rico and the U.S. Virgin Islands. A Spanish hearing caller may dial 1-800-855-2885 to reach Spanish deaf, hard of hearing or speech disabled, and Spanish text telephone users may dial 1-800-855-2884.

These services are available 24 hours a day, seven days a week and enable people to place relay calls between Georgia and other locations anywhere in the United States and internationally to English and Spanish speaking persons. By law, each conversation is handled with the strictest confidentiality. There is no additional charge to access the Georgia Relay Service. To learn more about the Georgia relay service, visit the website at [www.GeorgiaRelay.org](http://www.GeorgiaRelay.org).

**Please note that 7-1-1 is only to be used to reach the Georgia Relay. For EMERGENCIES you should continue to use 9-1-1.**

---

# MAKING LONG DISTANCE CALLS

---

## Direct-Dialed:

Long distance rates are the lowest when you dial the call yourself and speak to whoever answers.

## Person-to-Person:

To talk to a particular person or extension number, tell the operator you wish to make a "Person-to-Person" call. Rates are higher than a "Station-to-Station" call and also apply when you talk to an alternate person or extension. Person-to-Person calls may be dialed directly.

## Collect Calls:

Be sure to tell the operator you want to place a "collect" call. Collect calls may also be dialed directly.

## Conference Calls:

To talk with several people in different places at the same time, dial "0" and tell the operator you wish to make a "conference" call. A special charge will be made for this type call.

## WATS 800, 844, 855, 866, 877, 888 Telephone Numbers:

Station-to-Station long distance calls may be made (without charge to you) to customers who have inward Wide Area Telecommunications Service. Dial 1 plus 800, 844, 855, 866, 877, 888 then the special number having this service.

## Directory Assistance (Information):

for local numbers.....411  
for long distance numbers.....1 +area code+555-1212  
Operator assistance dial "0"  
per usage fee may apply.

## Local Directory Assistance:

\$1.95 per call Verification and interrupt fee will apply.  
International Direct Distance Dialing:  
For information about international rates, dial your carrier of choice.

## How IDD works:

Dial the international access code: 011, then the country code, the city code and the local number.  
For example, to place a direct-dialed call to London, you dial: 011 + 44 + 20 + 12345678

## Person-to-Person, Collect or Calling Card International Calls:

Follow the instructions given under "How IDD Works," but dial 01 for the international access code. The operator will come on the line and ask for information such as the name of the person you are trying to call or your credit card number.

## Operator Assisted Calling:

Person-to-Person, calling card or billed to third number calls require operator assistance. Use the international Access Code "01" instead of "011".  
*\*certain countries will not accept collect calls.*

## **Additional Assistance or Information Dial "0" (operator) if you need assistance:**

- To call countries that cannot be dialed
- to get telephone numbers
- for help on completing a call
- to get help on completing a call
- to get credit if you reach a wrong number
- to get City Codes that are not listed

Calls to Canada, Puerto Rico, the Virgin Islands and most dial points in the Caribbean can be dialed the same as long as long-distance calls with the continental United States.

## International Calling:

If you are presubscribed to a long-distance company which provides international calling, you may use the following dialing instructions:

Dial the international Access Code 011, the Country code, the City Code, the local number and the # button if you have touch-tone service. This will speed your call along.

---

# LIFELINE SERVICES

---

**People across the United States rely on phone and internet to stay connected to family, work, education and essential services. The Lifeline Program provides a monthly benefit to reduce or eliminate the cost of these connectivity services for qualified households.**

Millions of people across the United States have no access to the internet services needed to work, learn and communicate. In an effort to connect people to the services needed to participate and function in today's digital world, the Lifeline Program now includes the option to choose internet.

## **Here's How It Works:**

Lifeline offers a monthly benefit of \$9.25 to eligible subscribers or up to \$34.25 to those living on Tribal/ Native lands. Subscribers may receive the benefit on either:

- Home phone
- Mobile and home internet
- Cell phone
- Internet-phone bundle

To get started, a consumer must select a participating Lifeline service provider in their state and apply for Lifeline through the provider. The provider then supports the consumer through the application process and verifies eligibility. Once enrolled, the provider begins delivering the monthly benefit to the consumer. Lifeline is the Federal Communications Commission's program to help make communications services more affordable for low-income consumers.

## **Eligibility:**

Consumers are eligible for a Lifeline benefit if they are currently enrolled in one of the following programs:

- Income based eligibility (at or below 135% of the federal poverty guidelines.
- SNAP (Supplemental Nutrition Assistance Program)
- Supplemental Security Income (SSI)
- Federal Public Housing Assistance
- Veterans Pension and Survivors Benefit
- Medicaid

## **Program Rules:**

- Lifeline is available only to subscribers who can document their eligibility.
- Only one Lifeline benefit is permitted per household
- Subscribers are required to rectify their eligibility every year.

**For more information please visit [lifelinesupport.org](https://lifelinesupport.org)**
